Full Stack & React Native Engineer with **2+ years** of experience shipping production mobile and web applications. Built healthcare products with **100K+ downloads** across iOS and Android, with strong experience in **React Native, Next.js, TypeScript, Node.js, and PostgreSQL**.

EXPERIENCE

2+ yrs full-time

Full Stack & Mobile Developer — Tap Health

Apr 2025 – Present

- Built and shipped patient-facing healthcare experiences in **React Native, Next.js, and TypeScript**, including glucose tracking, meal logging, and multi-step onboarding.
- Integrated backend APIs and synchronized patient data across mobile and web flows, resolving state-management and navigation issues affecting core user journeys.
- Diagnosed complex navigation deadlocks, race conditions, and date/timezone bugs, improving application reliability across platforms.
- Designed and shipped **30+ Next.js landing pages**, optimizing rendering and Web Vitals for fast page loads and smooth user experiences.
- Implemented product analytics and event-tracking funnels to identify onboarding and patient journey drop-off points.

Full Stack & React Native Developer — ZarvisGenix

Sep 2024 – Apr 2025

- Built and deployed production web and mobile products using **React, React Native, Node.js, and PostgreSQL**.
- Developed clinician portals, administrative dashboards, and HR platforms with RBAC, authentication, and data synchronization.
- Integrated speech-to-text pipelines to support voice transcription and automated workflows.
- Designed PostgreSQL schemas with Prisma ORM and built secure, rate-limited REST APIs.
- Worked directly with stakeholders and investors to turn product requirements into technical architectures and production releases.

PROJECTS

3 Production Products

Figma to Code · TypeScript, Figma Plugin API, React, Tailwind

[Figma Community ↗](#)

Official Figma Community plugin that converts Figma frames and Auto Layout structures into responsive HTML, Tailwind CSS, React JSX, and Next.js output. Runs entirely inside the Figma client and packages generated projects into downloadable ZIP files.

AI Technical Interviewer · Next.js, WebSockets, Monaco Editor, Voice AI

[Live Platform ↗](#)

Real-time technical assessment platform combining voice interaction, WebSocket-based editor streaming, Monaco Editor, model fallback, and automated evaluation workflows.

HealthTrack Analytics · Next.js, React, Prisma, PostgreSQL

[Live Platform ↗](#)

Full-stack health and fitness platform with guided onboarding, BMR/macro calculations, nutrition and hydration logging, workout tracking, and relational analytics.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, SQL, Python, HTML, CSS
Frontend	React, Next.js, Tailwind CSS
Mobile	React Native, Expo, React Navigation, iOS & Android
Backend	Node.js, Express.js, REST APIs, WebSockets
Data	PostgreSQL, Prisma ORM
Tools	Git, GitHub, Docker, Vercel, Figma Plugin API, Postman

EDUCATION

2023 – 2026

B.Sc, Computer Science — Satavahana University · Telangana, India

HIGHLIGHTS

- Shipped production React Native features for an application with **100K+ downloads** across iOS and Android.
- Published an official **Figma Community plugin** for automated design-to-code generation.
- Built and deployed **4+ production web and mobile products** end-to-end.
